Field Team One-Page Checklist

On-site school go-live validation sheet (print optimized, large spacing)

Deployment date: _____

School: _____

Field lead: _____

Technical contact: _____

A) Access and Roles

- [ ] Admin can log in and open dashboard
- [ ] Manager can access classes and enrollments
- [ ] Teacher can access assigned seances
- [ ] Student can log in and open classes list
- [ ] Role mismatches corrected before continuing

Pass criteria: All four role paths work on first attempt.

B) Core Data Ready

- [ ] School settings are configured
- [ ] At least 1 class exists
- [ ] At least 1 teacher assigned to a seance
- [ ] At least 1 student appears in class roster

Pass criteria: Class, teacher, and student data are all present.

C) Enrollment Flow

- [ ] Student submits enrollment request
- [ ] Request appears in enrollments list
- [ ] Manager/Admin approves request
- [ ] Student appears in class roster after approval

Pass criteria: Enrollment request-to-approval works end to end.

D) Attendance Flow

- [ ] Teacher opens seance checklist
- [ ] Attendance record loads/creates successfully
- [ ] Teacher adds/removes one student entry
- [ ] QR flow tested (if enabled)
- [ ] Attendance list refresh shows changes

Pass criteria: Teacher can complete attendance without support.

E) Absence and Reporting

- [ ] Attendance-to-absence conversion runs
- [ ] Absence appears in absences list
- [ ] One justification update tested
- [ ] Reports/charts pages load

Pass criteria: Absence lifecycle is functional and visible.

F) Admin Safety Checks

- [ ] Import/export opens and runs with sample file
- [ ] Manual attendance periodic tasks run
- [ ] No critical errors in logs

Pass criteria: Operations team can maintain the system safely.

Log file: storage/logs/laravel.log

Go/No-Go Decision

- [ ] **GO**
- [ ] **NO-GO**

Reason (if NO-GO): _____
